

Slenderman

AJ: i think that even the forest from slenderman could be a nice example of the kind of trees we can make and what sort of atmosphere our environment should create

Nerea: great point this is looking great :)

Little Nightmares

AJ: the little cone people almost look like ghosts, maybe we could make an asset that resembles them in a way?

Nerea: i was thinking about making people with houses instead of heads just like she did in her artwork about womanhood

AJ: ooooooh that would be amazing!

Nerea: yess also the houses are very simple so it should be an easy asset to model :)

Alice: Madness Returns

AJ: these slimy baby characters from alice:madness returns fit the aesthetic of louise bourgeois quite well

Nerea: yesss i love this!
